This is our second “Project of the month”.

We create a jewellery design in a style of a chosen country. France is the country of this month.

How do we imagine a “French necklace”? Evidently, we have very different pictures in our minds. Our projects are very different even if we thought of the same country of our inspiration.

Here you can see the results of our little designing game.

Albina’s project

Albina has some notes in Russian in her picture. Do not get discouraged if you cannot read them. There are no tricks described there. You need to play with this pattern and figure out the best way to put everything together that would work for you. This is not a pattern to follow exactly, but more like an idea that gives you plenty of room for creating your own piece.
