**February, 2007**

The authors of the patterns in this file are the moderators of the Magic Jewellery Box

This is our second "Project of the month".

We create a jewellery design in a style of a chosen country. France is the country of this month.

How do we imagine a "French necklace"? Evidently, we have very different pictures in our minds. Our projects are very different even if we thought of the same country of our inspiration.

Here you can see the results of our little designing game.

## **Alexandra's projects**

Alexandra is very excited about participating in our Project of the month event. Though, she is very busy now and has not got enough time to make her diagrams more detailed. She promised to make them more clear later. We will notify you in our group when her detailed diagrams are available.
